WORLD MOURNS FOR THEODORE ROOSEVELT

Oyster Bay, N. Y., Jan. 7.—Messages of condolence poured in on the family of former President Roosevelt today from all parts of the world. Four telegraph operators were swamped by them. Among those received today were:

Queen Mother Alexandria of Great Britain:
"I am indeed grieved to hear of the death of your distinguished husband for whom I had the highest and greatest regard. Please accept my deepest sympathy in the irreparable loss you have suffered."

Secretary Daniels:
"My wife joins me in sincere sympathy at the death of your husband."

J. G. Cannon:
"You have my sympathy in your great bereavement"

It was noted that many of the sympathy notes came from "just plain folks" who never saw Roosevelt, but felt that they had suffered a personal loss and hastened to express their grief. A number of cables arrived from soldiers in the American expeditionary force who were entertained at Sagamore Hill while in Long Island camps, before going across.

Oyster Bay, Jan. 7.—A few simple preparations were made today for Col. Roosevelt's funeral with the idea of making it as plain and unemotional as a ceremony as possible. The services will consist merely of a prayer and Episcopal ritual—ashes to ashes and dust to dust—without hymn, without a sermon.

There was a hush over the village today. Some places were closed. A few mourners arrived. But for the

CONDOLENCE SENT BY THE PRESIDENT

Oyster Bay, N. Y., Jan. 7.—Messages expressing grief at the death of Col. Theodore Roosevelt and extending sympathy to his widow were received today from President Wilson, King George, President Poincare and Premier Lloyd-George.
President Wilson's cable was dated Monday, Jan. 6, and said:
"Pray, accept my heartfelt sympathy on the death of your distinguished husband, the news of which has shocked me very much."
"Woodrow Wilson."

most there was no unusual stir—the town looked as it would on a Sunday.

An atmosphere of gloom and mourning pervades this little town, and on presses the visitor the moment he steps from the train. It took quite a while for the realization of its loss to spread along the quiet streets but now there is only deep dejection and sincere mourning.

Apparently, there is no one in the village who does not seem to consider that he lost something out of his own life when silent death walked in and laid his hand upon the impetuous heart at Sagamore Hill.

They all know the colonel. They speak of him in whispers, as though he were their brother, asleep in the next room.

Roosevelt, the man of action and strife, in whose ears applause of millions had dinmed, lay not in state with a military guard of honor, but like the most humble private citizen, in the sorrowful calm of his own house, with none but his own home folks to look up his face.

Sagamore Hill looked rather desolate. The blinds were drawn in some of the windows; a bit of crepe flapped in the wind. Leafless trees about the house and in the estate surrounding it, added to the atmosphere of sadness. An occasional automobile drove slowly up to the side doors, its motor making a noise that seemed rudely disturbing.

Rev. J. E. Talmadge, who will conduct the services, indicated today that no change in arrangements had been made. The plan is to have a brief prayer at Sagamore Hill at 12:45. Then employees of the family will carry the casket out, and walk beside the hearse which bears it to Christ Church. This sends but 500 persons. A congressional delegation will be there. Admission is to be by card only and these cards were being issued only to relatives and close personal friends. After the short service there the

immediate family will be taken to Young's Memorial Cemetery at Oyster Bay Cove where the former president will be laid in a grave dug at a spot selected by himself. The Episcopal ritual, designated for the cemetery, will be read there. Although Mrs. Roosevelt wants as little publicity as possible, it was certain today that a large number of mourners could be on hand tomorrow to stand uncovered outside the little church during the service and to line the road from the church to the cemetery paying their last respects to the dead ex-president. But before an eleven hour change there will be none of the mournful pomp of muffled drums and reversed arms, so closely associated with final honors of a former president and commander-in-chief of the army and navy. The world's farewell to Roosevelt will be in its lack of color, a striking contrast to his spectacular career.

The casket was delivered at the house today and the body placed in it. It is of severely plain design of oak with three silver handles on either side. The inscription on a silver plate is "Theodore Roosevelt," October 27 1858, January 6, 1919."

Despite the request that there be no flowers, a number of set pieces arrived. They were taken to the church. A small flag was hoisted to half mast in front of Sagamore Hill, this morning.

Leslie Dishrow, worshipful master of the local Masonic Lodge, of which the ex-president was a member, said all his plans for participation in the funeral had been halted because of the family's plans.

A squadron of military airplanes wheeled and circled high over Sagamore Hill today, dropping flowers. This unique tribute will be repeated several times before the funeral, and airplanes may fly over the cemetery during the interment.

One of the "mourning" airplanes flying about Oyster Bay this afternoon swooped low over the roof of the Roosevelt home and neatly deposited a wreath there.

COMPLETE ANARCHY REIGNS IN BERLIN

Munich, Jan. 7.—Complete anarchy reigns in Berlin, according to telephone messages received from the capital today. Civil war has broken between Spartacus and government forces. Thousands of workers are fighting in the streets. The rattle of machine guns can be heard throughout the city. Spartacusians have barricaded themselves in many of the public buildings and are reported to hold all the banks.

Later telephone messages said that government forces were planning to storm the central police station this (Monday) afternoon.

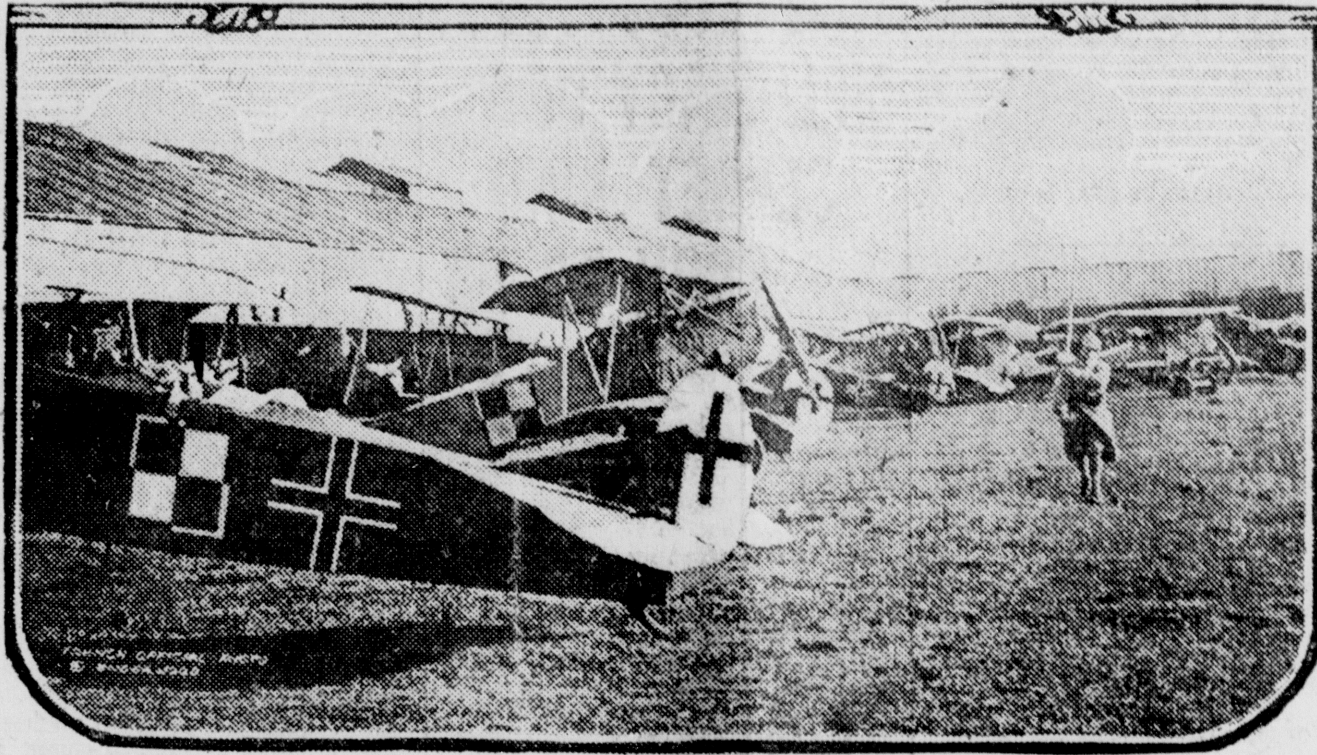

Karl Liebknecht was reported to be personally leading the Spartacusians.

Hundreds of persons are fleeing the city.

NEEDS AMMUNITION.

Washington, Jan. 7.—Mexico needs ammunition to fight banditry and is appealing to the United States to remove the arms embargo order of 1916, Ignacio Bonillas, Mexican ambassador to the U. S., informed the United States today.

GERMANY'S AIR FLEET LIES IN ALLIED AIRDROMES

First instalment of German airplanes in French airdrome near Ardennes forest. Germany's air fleet which spread terror over defenseless towns and bombed hospitals until forced behind German lines by the allied fliers is now being placed on exhibition in allied territory. It is being turned over in instalments to the allies under the terms of the armistice.

INTERESTING DESCRIPTION OF THE DEBARKATION HOSPITAL WHERE DR. MCLELLAN IS SURGICAL OFFICER

A recent issue of the New York Medical Journal contains an interesting article regarding Debarkation Hospital No. 3, where Captain B. R. McClellan of this city, is chief surgical officer. The article is illustrated, and the illustrations include a picture of the administrative staff and of the commanding officer, Major W. J. Monaghan, M. C.

The first patient, Private Muir of Malden, Mass., arrived at the hospital last November 23. In part the article regarding this hospital reads:

"They are lucky patients who are assigned to Debarkation Hospital No. 3. It is in the heart of the city, occupying the Greenhut and the Cluett buildings, which extend from Eighteenth to Nineteenth street on the east side of sixth avenue. The Greenhut Building has a total floor space of 300,000 square feet, or fifteen acres. The building is one of the best lighted of its size in the city, for it has 52,198 square feet of outside windows, some of which has a single pane of glass twenty feet wide by fifteen feet high.

The Cluett building, eleven stories high, is used as barracks for the enlisted men, the Greenhut building being devoted to the hospital proper. The main floor of the Greenhut building on the Sixth avenue side, is occupied by a Red Cross theater seating nearly one thousand. Around this auditorium are booths giving some privacy for patients in meeting their relatives. The main floor also furnishes the receiving rooms and a garage for twelve automobiles.

On the roof is a conservatory with over 4,000 square feet of floor space, and with glass walls and roof which is fitted up as a lounging room. This has been supplied with palms, ferns, a piano and a victrola through the kindness of friends.

On the mezzanine floor are the offices of the commanding officer and his staff. The western portion of the second floor, is devoted to three surgical wards and the southern portion to an officers' ward. The eastern portion, houses the dining room and the kitchen. This kitchen is the largest in the city of New York and is fitted up with the very latest and best equipment.

Every utensil used is of aluminum, this metal even being used for the six big steam jacket kettles for boiling soup, and six big coffee urns, each with a capacity of sixty gallons. The kitchen equipment includes 140 running feet of heavy duty gas ranges, eight steam cookers, which carry 350 pounds pressure, and four low pressure steam cookers and electrically driven kitchen machine with attachments for mixing dough, grinding meat, whipping cream, mashing potatoes, vegetables, etc. There is also an electrically driven potato neeler, which needs two barrels of potatoes in an hour, and which does it with such great economy of potatoes that when the hospital is running at full capacity, it will save its own cost \$640 from this economy alone in six weeks.

The cafeteria idea is applied in modified form to the service for bedridden patients, the cafeteria going to the patients. This rolling cafeteria consists of a service wagon on wheels, fitted to receive four covered food containers each twenty-two inches long, fourteen inches wide, and eighteen inches deep. The nurses will supply each new patient with a tray, plate, etc. Two of these mobile cafeterias are wheeled to the bedside and the patient served with food and drink direct from the big containers.

The operating room, including the dental office, X-ray room and dressing rooms, are on the fourth floor. The operating room faces south with windows reaching from floor to ceiling. Suspended from the ceiling is a cluster of electric lights in circular form

which provides ample illumination, devoid of shadows.

The dispensary occupies a central portion of the fourth floor, and keeps four enlisted men busy dispensing prescriptions. When the hospital is running at full capacity, more help will be required.

Three isolation wards, each of which has fifty beds, are provided in a space on the eastern side of the Greenhut building, completely walled off from the remainder of the building, though communicating doors are cut in the walls.

One corner of the basement is occupied by the Post Exchange. When detailed as post exchange officer, Lieutenant C. C. Rogers, M. C., an eye specialist from Allentown, Pa., asked for funds to purchase supplies, but none were available. The next day he reported to Major Monaghan that he had purchased 100 quarts of ice cream, 50 dozen soft drinks and \$200 worth of tobacco and cigars. "But where did you get the money?" asked the major. "I didn't get it," said the lieutenant. "I will pay when I sell the goods." And he has been selling them. One hundred quarts of ice cream went in the first 22 hours. Lieutenant Rogers also has a barber shop with five chairs which took in 860 during the first week, netting a profit for the exchange of \$9 a day.

Visitors are a source of never ending worry in every military hospital. Anxious parents come in droves to see their hero sons, and their rights must be recognized, although their presence is sadly subversive of discipline unless carefully regulated. The American Red Cross is furnishing valuable aid in handling this problem. An entrance on Sixth avenue has been designated for visitors. On entering the visitor confronts a desk where Red Cross representatives supply a blank on which the visitor writes the name rank and command of the patient, and the visitor's relation, whether parent, relative or friend. The whereabouts of the patient learned from a card index, is inscribed on the blank, and a Red Cross messenger dispatched to find him.

When working at full capacity the hospital can accommodate 3,400 patients, whose care will require the service of 65 officers, 300 nurses and 900 enlisted men. There will also be attached to the hospital for escort duty, 60 officers and 400 enlisted men. On Christmas day the hospital had 3,200 patients of whom 3,365 were surgical cases.

WOMEN TAKE PART IN THE STREET FIGHTS

Copenhagen, Jan. 7.—Women supporters of both factions, are participating in the street fighting in Berlin, according to a Berlin dispatch, filed last night and received by the Politiken today.

Thousands of workmen are engaged in the conflict, which has assumed the proportions of a civil war. The fighting was preceded by counter demonstrations, in which a great proportion of the population joined. The rival elements bore placards with the legends "down with the government" and "down with the Spartacus."

The Spartacusians then massed in the Tiergarten and Zoological Gardens. Shots were fired and the fighting began. Spartacusians seized telegraph offices. Shops are said to be closed and business at a standstill.

HE NAMED PLACE

London, Jan. 7.—"Where in hell could we send him?" demanded Count Bernstorff, in reply to an interrogation by the Berlin correspondent of the Express, relative to the ultimate disposition of the former kaiser. Bernstorff admitted there might possibly be an element of danger in allowing the kaiser too much freedom.

DRY AMENDMENT RATIFIED BY LEGISLATURE

Columbus, Ohio, Jan. 7.—Ohio late today because the 17th state in the Union to ratify the National Prohibition Amendment, when the House adopted the ratification resolution by a vote of 84 to 29.

The senate had previously adopted the resolution by a vote of 20 to 12. In each house the vote made a tie effort to have the measure referred back to the people for a vote.

This, the first test of strength on prohibition, caused dry leaders to predict that the measures for enforcement of state prohibition, which they will introduce later, will go through. Action by the house on the national amendment is expected late today. An attempt by Senator Wright, Cleveland, to amend the resolution on which the senate voted to provide for a referendum vote on ratification next November was defeated, 19 to 12.

This resolution to ratify the amendment was introduced by Senator Ligggett, Logan county. The senators who voted for it were: Ake of Canton; Archer of Caldwell; Beebe of Mount Gilead; Berry of Spencerville; Busbey of South Vienna; Davis of Youngstown; Demuth of New Philadelphia; Hopley of Bucyrus; Kryder of McClure; Latham, of Monroeville; Ligggett of Belle Center; Lloyd of Westerville; Miller of Dresden; Parrett of Washington C. H.; Patterson of Piquette; Ritten of Tippecanoe City; Sparks of Dayton Stone of Oberlin; White of Lisbon, Whitmore, Akron.

Voting against it were:
The first bill of the session, introduced by Senator Jones of Columbus, proposes an appropriation of \$75,000 to buy a "governor's mansion" in Columbus.

ROOSEVELT HAILED AS MOST POPULAR MAN IN THE WORLD

Buenos Aires, Jan. 7.—Regret at the passing of Col. Roosevelt, whom one journal referred to as "The most distinguished son" of the United States and the "most popular man in the world," was expressed today by Buenos Aires Newspapers.

El Dario lauds him as the "great international" and adds:
"He was perhaps misunderstood on one occasion as being aggressive towards South America, but his visit in 1913 and personal explanation of his interpretation of the Monroe Doctrine dispelled suspicion and showed his great vision. He proved his friendship for South America, when, during his last administration, he was the first to invite all the South American republics to The Hague peace conference."

WANTS GOVERNMENT TO OWN THE RAILROADS AND THEN LEASE THEM

Washington, Jan. 7.—Government ownership of railroads, the railroads to be leased to private operating companies, was advocated today by Senator Cummins, Iowa, Republican. He will be chairman of the senate interstate commerce committee after March 4.

As Cummins outlined his plan to the United Press, it provides for:

- 1.—Government ownership.
- 2.—Leasing of roads under strict terms of private concerns.
- 3.—Maintenance of a dozen or so competing lines to operate with unified terminals.
- 4.—Cabinet officer or government railroad administrator or possibly a small board.
- 5.—Issue of Capital stock to cover equipment by government at guaranteed return of probably 4 1/2 per cent.
- 6.—Operating capital to be supplied by lease with larger return in proportion to efficiency of management.

Cummins will urge that congress enact legislation along this line. He is now waiting for the interstate commerce committee, to complete its hearings on the railroad question before he finally settles on several important details in his plan.

"What we want is to combine the advantage of government ownership

and private initiative," Cummins said. "I think we can get this by letting the government own the railroads and leasing them to operating companies at a guaranteed return."

Cummins explained that competing systems must be organized through the same territory and he is opposed to regional grouping as suggested by retiring director general, McAdoo.

Under the Cummins plan, the government would issue a securities stock and bonds—on the property value of the equipment at a guaranteed maximum return of 4 1/2 per cent. Operating companies leasing the roads would supply the small amount of capital necessary to do business. This money would bring a higher return, based largely on the efficiency with which the company ran the road. Leases would allow return up to a fixed figure, 6 to 7 per cent for instance, and before that increasing proportion of the excess return would go to the government. Cummins explained, On profits over seven per cent say 1-4 would go to the government and on profits over 8 per cent the government's share would be 1-2 per cent.

The figures Cummins explained, are only to illustrate his ideas and are not necessarily those which should be adopted.

FRANCE DEEPLY SHOCKED BY THE DEATH OF T. R.

Paris, Jan. 7.—France is deeply shocked at the death of Col. Theodore Roosevelt, as though she had lost one of her greatest statesmen. The newspapers today prominently displayed eulogistic articles regarding the former president.

"A great friend of France is dead," said the Echo De Paris. "But he lived to see the event he so ardently wished—France's victory—to which American so gloriously contributed and for which the blood of his own son was shed."

"He was the forerunner of America's present greatness," The Journal says. "It was during his presidency that America was brought into being as the great international power which today undertakes to create a society for the future."

"Our admiration for President Wilson cannot prevent us from rendering just homage to the qualities of his adversary, who like Wilson had a great love for France."

"France had no stronger friends in the United States," said the Petit Parisien.

J. J. Jusserand, ambassador to the United States gave out the following statement:

"Col. Roosevelt's death will be mourned nowhere more sincerely than

in France, whose cause he upheld in her worst crisis, in a way which can never be forgotten."

Col. Theodore Roosevelt Jr., and Capt. Kermit Roosevelt, are now in Montauban.

PRESIDENT BACK IN PARIS READY FOR PEACE MEETING

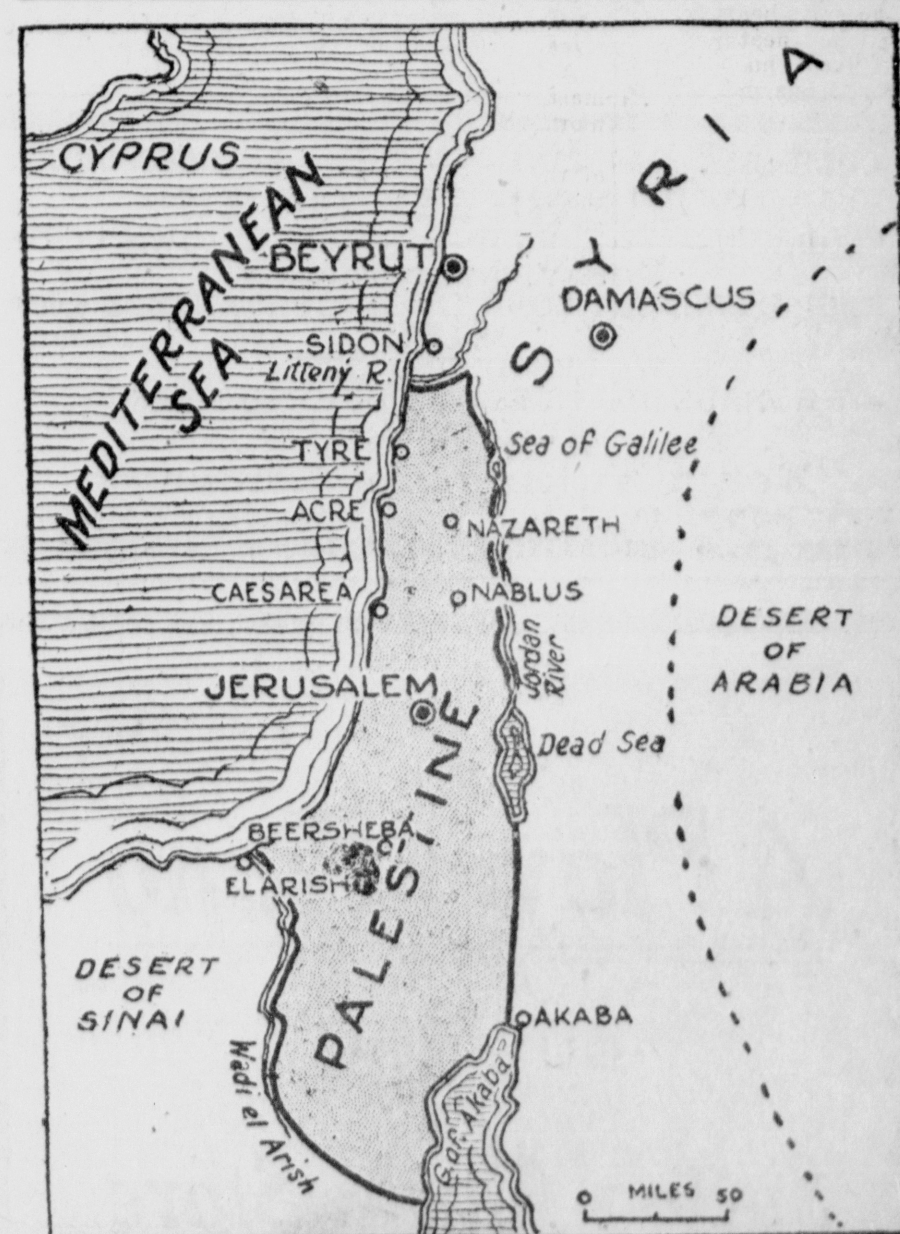

Paris, Jan. 7.—Back in Paris, President Wilson was expected today to plunge immediately into the final preliminaries which will precede formal peace deliberations of the associated powers.

The president returned from Italy armed with the obvious support of the common people of that country. This endorsement, added to the apparent backing of his peace program by the majority of public opinion in Great Britain and France was accepted in American circles as giving him an initial advantage in the approaching conversations.

The joint conferences of the American, British, Italian and French delegations which, it is believed in many quarters, will constitute the real peace congress, were expected to get under way no later than the first of next week.

There was some talk in unofficial circles that any scheduled formal conversations might be adjourned tomorrow—the date of Col. Roosevelt's funeral, in deference to the memory of the former president.

THE NEW PALESTINE

Dr. Sokoloff, a leader of the Zionist committee in Paris, has outlined the boundaries of Palestine that will be urged at the peace conference. He says: "We ask not for the greater Palestine of Solomon, but simply for the tract of country between our ancient boundaries, and to Beersheva, or, in modern terms, from the River Litteri to El-Arish. Westward our limit should be the sea, eastward it may be that the new Arabian kingdom will preclude our extension beyond the River Jordan, which would thus form our eastern boundary. Otherwise we feel that the region around Hauran and the desert tract southward in the direction of the Gulf of Akaba might be included in our territory. At present it is barren and practically uninhabited, but could be irrigated, as in ancient times."

DIPLOMACY OF SECRET KIND SOON TO DIE

Paris, Jan. 7.—Death knell of secret diplomacy is expected to be sounded when the formal peace negotiations of the associated powers open next week.

The feeling was growing among officials today that these sessions which probably will start at Versailles, Jan. 8 or 14 should be open to the press of the world. Inasmuch as the allied nations have agreed that secret diplomacy must be abolished, it was felt the American attitude that this is the time to put the principles into effect, should receive ready endorsement by other delegations.

These sessions at Versailles are likely to be more or less formal with President Poincare welcoming the delegates and observance of other diplomatic courtesies.

But they are expected to be symbolic of the new era of open diplomacy and abolition of secret treaties.

While the Versailles conference will mark the official opening of the negotiations toward peace, the actual opening, so far as discussion is concerned, began with President Wilson's return to Paris today. The president's idea is to have the congress grow from individual into general discussion.

FIVE TRUE BILLS ARE RETURNED BY THE GRAND JURY

Five true bills were found by the grand jury which made its report to Judge C. H. Kyle Tuesday afternoon.

Mrs. Bertha Cavender Bille was indicted for throwing nitric acid on the person of her husband Tony Bille, with the intent and purpose of maiming and disfiguring him. A special law covers an offense of this nature, the maximum penalty provided is life imprisonment. Mrs. Bille, who was never arraigned in police court owing to the condition of her husband, who was unable to leave the hospital, is preparing to fight the case, it is understood, and has engaged an attorney. The victim of his wife's acid throwing appeared before the grand jury Monday afternoon, his face swathed in bandages and testified. Thomas Valsopoulos, proprietor of the New Manhattan restaurant, accompanied him as interpreter.

True bills charging grand larceny were found against Ralph Morrow and Homer Mason, former employees of the Adams Express Company. The former is charged with stealing \$300 worth of articles, including a Bible and a chip diamond lavaliere from the express company, last February 15. The latter is charged with stealing \$150 worth of goods on the same date.

L. C. Adair was indicted on ten separate charges of embezzlement from James A. Johnson, a Jamestown florist, and his son-in-law, by whom he was employed. The total amount he is charged with embezzling is \$143.38. William and John Wakely, of Spring Valley are charged with driving an automobile on a public highway, the Dayton and Bellbrook pike, while intoxicated.

Prosecutor Harry D. Smith was instructed to file affidavits in probate court against Ralph Foley and Lawrence Davis, minors, who were bound over on charges of grand larceny in the express robbery cases.

Frank Klontz of Grape Grove, one of the few sheep shearers left in Greene county, is lying at the point of death from an incurable malady.

Mr. Klontz has for years shorn sheep for nearly all the sheep raisers in the county, working at that occupation five months of the year.

He was a shearer of the class which is fast passing in this section, and his serious illness is a source of much regret to sheep men.

LETTER FROM GREENE COUNTY SOLDIER WHO WAS REPORTED DEAD

After he had been officially reported dead by the War Department, receiving a letter from their son, William Hoyle, was like getting a letter from the grave by his parents, Mr. and Mrs. Charles Hoyle, near Bellbrook. The letter was written nearly two months after the time he was supposed to have died, however, and while he was marching toward the Rhine. "They all take off their hats to the American soldiers," said the ad, in a letter to his sister, Miss Annie Hoyle, written December 10. He is a member of Company D, 117 Engineers Regiment, and his address is A. P. O. 715. A letter to his sister follows:

My Dear Sister and All:—
Will drop you a few lines this evening to let you know that I am all O. K. and hope you all are the same. I have not had the chance to do hardly any writing for a couple of months but it can't be helped when a fellow is on the move every day. We got to see a great deal of France, then went over through Luxembourg and then across Belgium and over into Germany. That is where I am while I am writing this letter to you. Right here in Germany. The people here treat us well, and they all take off their hats to the American soldiers. Just think sister, all the time we have been traveling through all of these countries, we were walking. Some walk in the mud, on this trip, but at the same time they are kept in pretty good repair. I don't think a great deal of Germany, what I have seen of it so far, but I must say that little Belgium, considering all of its hardships of the past four years, is surely a pretty interesting country.

This is a rough and rugged looking country through here and the little villages are so far behind the times that they never will catch up. Well, sister, how is everything at home and around home? It has been so long a time since I have had a letter that I should get about a dozen letters one of these days. O! well, I am not the only one who has not had mail in a long time. This whole regiment hasn't had mail in a long time. You asked me in a letter some time ago if I had heard from John Berryhill. No, I have not. I wrote him a letter this summer, but never got an answer from him. Well, I will close for this time, and hope that I will get some mail from home soon. Best love to all, I am as ever,

BILL.

NEW PASTOR GIVEN ROUSING WELCOME

The Rev. J. O. C. McCracken, of Johnstown, Pa., new pastor of the Presbyterian church, was welcomed by a large congregation, when he held services for the first time as pastor, Sunday morning. He preached an excellent sermon.

After the services there was an impromptu reception, many going forward to greet the new minister and shake his hand. Until Mrs. McCracken and their two sons arrive, which they are expected to do tomorrow, Mr. McCracken is a guest at the Grand Hotel. The family will live in the Baker property on South Detroit street.

DOCTOR ADVISED CHANGE OF CLIMATE

Run Down and Lungs Hurt—Stayed Home and Gained 22 Pounds.

"In November, 1911, I had a severe cold and a gripe, which left me with a bad cough. My lungs and shoulder blades hurt so I couldn't sleep and I finally had to give up my job as street car motorman. My physician told me to change climate. In April, 1912, I began taking Milk's Emulsion. On the second bottle I could see a change. My appetite was better and I commenced to gain strength and weight. Now (August 25, 1912) I have used 23 bottles, have increased 22 pounds in weight, and believe I am permanently cured."—W. F. Bourland, Route 5, Wolf City, Texas.

Mr. Bourland was fortunate in commencing to use Milk's Emulsion while his case was in an incipient form. Even in many advanced cases, Milk's Emulsion has wrought wonders. It costs nothing to try—it is guaranteed.

Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to run-down nervous people, and it has produced amazing results in many cases of tuberculosis of the lungs. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children.

No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold and guaranteed by Sayre & Hemphill.

COLLEGE ATHLETES RETURN FROM ARMY

With the return of many athletes who are in the service, to their colleges, college athletics are promising to revive considerably, and especially is this true at Miami University.

Couch Rider is brightened up considerably by news that Captain Robinson, now at Camp Sherman, will probably return in time to play on the basketball team, which at present hasn't a very bright outlook. The team goes on the floor for its first conference on January 11, against Oberlin, and just how Rider's combination will work in the initial fracas is decidedly uncertain. Coach Rider is hoping that Moore, captain of last year's freshman team will come back, and if so, he will try and build his team around Moore, and the four returning men, Robinson, Pratt, French and Munns.

Miami faces a different schedule this year, including Oberlin, Denison, Cincinnati, Wesleyan, Kenyon, Mt. Vernon, and Wittenberg. The football schedule for next year, said to be the hardest ever arranged, still stands intact. It includes games with Case, the first meeting of the two schools, Oberlin, the first meeting in five years, Mt. Union, Kenyon, Wesleyan, Denison, Ohio Northern and Cincinnati.

A tentative baseball schedule has been arranged, seven games having been listed, and others will be added. The nine will meet Wittenberg, Wesleyan, Cincinnati and Denison on the diamond. The track schedule is about as usual, Wesleyan, Cincinnati and Denison opposing the Oxford lads initial meets.

The annual interscholastic meet, which is coming to be one of the biggest red letter days in Miami athletics, has been set for May 15.

The squad goes to Columbus for the annual Big Six meet on May 24.

REV. HENRY DIETZ TO LEAVE PIQUA

The following item taken from the Piqua Daily Call, is of interest locally as both Rev. and Mrs. Dietz are formerly of this city. Rev. Dietz is a graduate of the Xenia Theological Seminary and his marriage to Mrs. Dietz, who was formerly Miss Laura Bone, of near Xenia, was an event of last summer.

Rev. Henry C. Dietz, who has been acting as pastor of the United Presbyterian church of this city, will deliver his farewell sermon on Sunday morning. Rev. and Mrs. Dietz are to leave on Tuesday for a short stay in Cincinnati.

For the past year, Rev. Mr. Dietz has been supply pastor at the church, taking the place of Rev. J. Ralph Neale, who had been given a leave of absence for Y. M. C. A. work in France. Rev. Mr. Neale returned a few weeks ago and since that time has been resting in Columbus. He is expected to resume his pastorate here the first of the year.

Both Mr. and Mrs. Dietz have endeared themselves to the members of the congregation of the United Presbyterian church and, although a hearty welcome will be accorded Rev. Neale, the church members and all the acquaintances of Mr. and Mrs. Dietz will be sorry to know that they are leaving Piqua.

Mr. Dietz' plans for the future are not definite. While in Cincinnati he will consider the pastorate of a mission church there and he has also been considering several other positions.

THEATERS

Bijou.

Miram Michelson's splendid novel, "Michael Thwaite's Wife," has been cleverly dramatized and presented on the screen by Select Pictures, under the title of "The Better Half," the picture appearing at the Bijou Wednesday.

Alice Brady has been chosen for the leads and will play a dual role in the picture, and a most difficult dual role at that, since she has to register two entirely different emotions in almost every scene. The production is one of the most fascinating of this pretty star's recent releases. She is supported by David Powell, Cranford Kent, W. T. Carlton and others.

Orphium.

Bluebird struck twelve in the comedy situations provided in "All Night" featuring Carmel Myers which plays at the Orphium Theater Wednesday evening.

The comedy situations crowd each other through the five reel picture and almost end in disaster. Rudolph de Valentin, Charles Dorian, Mary Warren, William Dyer, Wadsworth Harris and Jack Hull, all have excellent parts in the production and contribute to the general fun. There is a good laugh in this film story.

Work and Workers.

There is not so much difference in the world's work as in the world's workers. It is not so much difference what we are doing—so long as it is useful—that counts as the way in which we are doing it. The work of which we are ashamed we either have no right to do, or we are not doing it as we should.

SUGGESTS THAT SCHOOLS BE RUN SEVEN DAYS A WEEK

John Creighton Ball of Bowersville has made to Governor Cox a suggestion that owing to the necessity of closing the schools for the weeks during the influenza epidemic, the schools should be operated every day, Sunday included, from now on until the end of the school year.

The following is a copy of the letter he sent to the governor, in which he made this suggestion:

Governor James M. Cox, Columbus, Ohio.

Dear Sir:—
The suggestion made herein, should have come from some of the thousands supposedly interested, school authorities, but as they seem "backward about coming forward," I make it.

Whereas: The soldiers, on the lines and in the camps and all mothers in the land, have been working every day in the week and expect to keep on doing so, pay or no pay, and

Whereas: The equipment of ALL of the young, with the absolutely necessary tools for acquiring an education, is in peace and war times alike, the MOST important and URGENT business of Americans, and

Whereas: The entire educational force has been fully paid for all of the time lost through the influenza epidemic, I suggest that ALL of the schools of OHIO be operated ON FULL TIME during the remainder of the school year, EVERY DAY in the week, Sunday, of course, included.

Very respectfully yours,
JNO. C. BALL.

W. C. T. U. OF NEW BURLINGTON ENJOYS DELIGHTFUL DAY

The Rachel E. Smith Chapter of the New Burlington W. C. T. U. was entertained Thursday, January 2, in the hospitable home of their president, Mrs. Jos. Leaming. The day was spent knitting comforts for the Belgian sufferers. Through the long months that have just passed the members of this noble order have seen a new vision of service. Their sympathies have been broadened, their motto now rings clear in their hearts "For God and Home and Every Land."

The pleasure of the occasion was enhanced by the presence of Miss Jeannine Boats, who has watched and prayed for the temperance cause for more than three quarters of a century, being ninety one years old. Her words of cheer and encouragement were a clarion call to the members to redouble their energy in the fight against the saloon and the social evils of this fair land.

At noon a bountiful dinner was served.

BAD COLD? HEADACHY AND NOSE STUFFED

"Pape's Cold Compound" ends colds and grippe in a few hours.

Take "Pape's Cold Compound" every two hours until you have taken three doses, then all gripe misery goes and your cold will be broken. It promptly opens your clogged-up nostrils and the air passages of the head; stops nasty discharge or nose running; relieves the headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling. Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.

WHAT FRANCE HAS DONE FOR DEMOCRACY

France has poured out blood and treasure to the breaking point to make the world safe for democracy. America owes her an enormous debt of gratitude for this and also for a perfect remedy for stomach, liver and intestinal trouble found by her peasants and used with reported marvelous results in this country—George H. Mayr, for many years a prominent Chicago chemist, imports the ingredients and sells this remedy under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sayre & Hemphill and druggists everywhere. adv

"WEEK OF PRAYER" THOUGHTS.

It was a very simple, natural act, the eating of that fruit in Eden. The only objection to it was that it involved a declaration of independence against the will of God. Adam only assumed the right, (which is so stoutly claimed by a great many men,) to think for himself and do as he pleased, regardless of God's law, or the consequences upon others. There, there is the evil. Our Rights go only so far, and they end where the rights of others commence—or where our influence over others is concerned, and the consequences thereof. And in Adam's case, how awful the consequences of his disobedience of the will of God.

Every reader of these words is every day and all day long facing exactly the same question which faced Adam and Eve when standing before that tree. Right and Wrong—God's will or my will. Self sacrifice or self gratification are in the balance seeking which shall predominate, and often the consequences involved are beyond human computation.

You may sin today and be forgiven tomorrow, but your act may have exerted an influence for evil which the ages alone may go on and on in ever broadening circles to exert their frightful consequences. Thus it is that the influence of our acts and words bear compound interest in the way of results upon others, and through them upon many whom you have never seen or even heard of.

If you could have the chance that Adam had, do you think you would deny yourself to save the race from the cursed accumulation of interest on that original sin? You are not called on to do that very thing—but you have the same kind of chance with regard to a multitude of others who shall directly or indirectly feel the effects of your words and acts. How important then that we should have a bridle to our tongue and a safety-valve upon our acts that we influence none for evil.

It was Beecher who said our gifts and attainments are not only to be light and warmth in our own dwellings, but are also to shine through the windows to guide and cheer bewildered travelers on the road.

This is the "Week of Prayer" all over the nation. Millions and millions will be the supplications that will go up to heaven, imploring God to convict sinners and turn their hearts to him. And who is there that will say these prayers are not answered, in the face of the fact of the results of special efforts on the part of churches and devoted Christians.

We all remember with gratitude the great spiritual awakening that came from the wonderful meetings held here by Evangelist Biedervolf and his co-workers. Not only many hundreds of persons gave their hearts to God, but the whole community was greatly benefited by the meetings—a season of religious awakening never to be forgotten.

True religion carries health and strength into the soul—regulates all things—subordinates all things to their just position. Religion is only another word for the right use of a man's whole self. It puts men into connection with God; it brings them into harmonious relations to their fellow men; it insures the sympathy of God with the struggles of human life.

If these are desirable things how important that all should enjoy them. How often God has abundantly blessed the "Week of Prayer." May it be so this year. Give it your earnest sympathy.

BERNSTORFF ON "RETICENCE."

The late unlamented Count Bernstorff complained, when ambassador to America, that "the fact of an American newspaper being subsidized can't be kept secret, because there is no reticence in this country."

Poor, crude New World! The American press and public must both feel profoundly humiliated whenever they recall that cultured rebuke.

Bernstorff himself, as we know from official disclosures, was a master of reticence. He could keep silent, in two or three languages at once, regarding a thousand evil and insolent plots against the peace, dignity and safety of the country whose hospitality he enjoyed. No code of honor, public or private, ever caused him to blurt out anything so embarrassing as a crooked subsidy, a bomb plot or a diplomatic conspiracy.

And now it has been suggested that Bernstorff may be a German delegate to the peace conference. It will not do at all. The poor fellow would be dreadfully shocked and annoyed. For, if the general impression of that conference is correct it will conduct its proceedings in the open, according to the crude ideal of American diplomacy. How can a statesman of Bernstorff's breed endure a diplomacy that has as little reticence and as much honesty as American journalism?

REVIVAL HELD BY METHODIST CHURCHES GAINS IN HEADWAY

The revival being held by the Methodist churches of the city is getting under such great headway that Evangelist Harney said last evening that the evening service was the best service for a first Monday evening service that he had experienced in 25 years of his ministry. There surely is enthusiasm and rejoicing in sermon, song and prayer. A wonderful spirit of concern for souls and a great expectation of a real old-fashioned revival of religion is heard on every hand. The people keep saying to one another, "We're going to have a revival." "The meeting is already begun." Indeed, the progress of the meeting as indicated by the spirit of the service last evening is more like a meeting that was two or three weeks along than like one just begun. Come, and see.

The great choir, under the leadership of Mr. Roper, sings like a tabernacle choir. Many people think of the Biedervolf meetings, when Mr. Roper was at the piano. A junior choir is being trained and sang last evening most charmingly, eliciting the applause of the large congregation.

The people are delighted with Evangelist Harney, he having won their hearts by his fine spirit of optimism, his friendliness, earnest, practical and heartfelt preaching, and by his fund of good humor.

The sermon last night was from the text: "No man cared for my soul." The preacher showed how pitiful and pathetic is the condition of unbelief for the souls of men. He made it clear and plain that God's assistance to men must come through the channels of other lives, and that whenever any one accepts Christ as his Savior, God gives that person a mission of soul-winning. Earnestly, tenderly, and yet so plainly he pressed home that thought to the hearts of the church. But, he said to the church, God cannot reach others through us unless there is a fellow-feeling for the un-saved, an interest in them, a burden for them and a deep concern shown in prayer and personal work. He said that the text is true because so little interest is shown in the un-saved, such weak effort is put forth to get folks saved. Then came an urgent appeal for all present to consecrate themselves to the work of soul saving.

The meetings will be held every night this week at 7:15. Everyone is invited.

Plants That Grow in Craters.

In the crater of the extinct volcano, Hualakalan, in the Hawaiian Islands, there flourishes a curious plant, locally known as "Silver Swords." They are evidently some kind of cacti. Efforts to propagate them elsewhere have, it is said, always failed. The crater where they are found is a huge cinder-strewn bowl, absolutely dry and devoid of any other form of vegetation.

NOW TO BRING THE ALLIED SCULPTORS' MASTERPIECE TO LIFE AND POWER

"THE WIFE"

BY JANE PHELPS

IN HELPING ANOTHER, RUTH HERSELF IS HELPED

CHAPTER CXXXIV

Angry tears came into Ruth's eyes as she read. The idea that even in his sickness Brian should long for Mollie King, hurt her dreadfully. He might have said he longed for her, Ruth. Of course she wasn't a "good pal" like Mollie King, she said aloud, as she wiped her eyes, and she didn't wear a becoming nurse's uniform.

To think he would fret more because he could not have Mollie with him, than he did because he was hurt.

"I am glad he had a plain nurse. I hope she was down-right ugly!" Ruth said as the tears again started when she re-read the part of his letter telling of his long walk with Mollie. What if they did talk of her and little Brian—they were together, while she was so far away and alone.

Somehow, Ruth could not overcome the bitterness this letter engendered. She thought of it almost constantly for days. It was inconceivable that if Brian really loved her, he would not long for Mollie as he said he did. Again all the softness she had felt vanished, and she was tormented by the old jealousy and the old distrust.

She wondered how long Brian would be convalescent, and if he and Mollie would spend that period taking long walks together. What did she care that they talked of her and the baby? It was their being together that she objected to. She realized that their intimacy would become even greater, perhaps, than ever. Women were like that; they were so sympathetic when a man they cared for was sick or injured. Ruth never doubted that Mollie was in love with Brian, whatever his feelings toward her were. At times—she now did—Ruth believed that Brian also was in love with Mollie, although she never could explain why he had not married her—explain it to her own satisfaction. Of course Mollie would have been glad to marry Brian.

Ruth threw herself into her work with such energy after the receipt of this letter, that Mandel wondered what had caused her to act as if she wanted to work harder than even the exigencies of the business demanded. He tried to caution her, told her she would make herself ill, and finally he became so worried by her feverish actions that he sent her to Philadelphia for a day or two upon some business another might have attended to as well. He thought the change might be good for her.

Ruth dimly sensed his motive and, while grateful to him, she thought: "If he knew that work kept me from thinking, he wouldn't try to stop me."

But in spite of her uneasiness about Mollie and Brian, the change did her good. Then, when she came back, one of her "war babies" (as she called the children whose fathers had gone) was forever fatherless. The zone "over there" before they were poor, young mother clung pitifully to Ruth, her constant moan being one of regret that her Tom never would see the boy he had longed for.

Somehow, this woman's complaint, that she wouldn't have grieved so if only Tom might have seen his boy, softened Ruth's feelings toward Brian. He too might have died without seeing his little son. Ruth did not reply to his last letter, but when she left poor Annie Rafferty grieving for her Tom, she went home and wrote a long letter. She told him he must be careful not to get hurt again, for the baby's sake. She said nothing of Mollie, but told him to thank that nurse, Mary Giddings, who had written her when he was helpless because of his injured arm. Then she repeated bits of gossip she had heard from either Mrs. Curtis or Claire Roberts. Kenyon was doing splendidly in his profession, and doing a great amount of war work as well. She had written:

"He never ceases to regret his lameness because it has prevented him from fighting. But I think he does as much good here as he possibly could over there. He and Claire are an ideal happy couple. She is right beside him in his war-work, and they seem so contented. But then they are together—which means a lot."

Perhaps Ruth would not have written that paragraph about Kenyon Roberts, had she realized that Brian often had compared her to Claire—not to disparage her; simply to wish she would make his home the same sort of a home that Claire, in her love for domesticity, made Kenyon's. That he had felt many times that, if she had, he also would have done well in his profession. But that she had taken from him the desire as well as the necessity for hard work because of her determination to earn money, and relegate the keeping of their home, to a servant.

PROMOTING GROWTH OF HOGS

Corn has been increased in yield 9 1/2 bushels per acre, oats 6 bushels, wheat 2 1/2 bushels and hay 3,010 pounds by an application of two tons of ground limestone once in five years on the farm of the Ohio experiment station at Wooster. A five-year rotation of corn, oats, wheat, clover and timothy is followed on this land. The limestone is spread on the land after the plowing for corn in the spring.

Rare Visitor Recorded.
The appearance of snowy owls, a rare occurrence, is reported. These remarkably beautiful birds come from the Arctic regions. Only four previous sightings have been recorded in the past 20 years of the country.

GIRLS! HAVE WAVY, THICK, GLOSSY, HAIR FREE FROM DANDRUFF

Save your hair! Double its beauty in a few moments—try this!

If you care for heavy hair, that glistens with beauty and is radiant with life, has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry and scraggy or too oily, get a small bottle of Knowlton's Danderine at any drug store or toilet counter for a few cents; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now? adv

Tomorrow—Ruth Plans For Brian's Home Coming.

Mrs. Austin's Buckwheat gives you the genuine, old time, flavor. Large package—twenty-five cents.

Why Cherish a Grudge?

If we are big and genial enough to include the good qualities of partial saints, we shall have abundant ground for joy and thankfulness. What a good world it is, where so many gracious qualities are ripening, slowly, perhaps, but evidently! Even where we have to set off some gift or attainment against some crooked remainder of ill-will or immaturity, why should we vex our souls by too much lingering on the weakness? There are all sorts of collections in the world—pictures and coins and postage stamps and furniture and china. But the least satisfactory collection of all for any man to make is a cherished gathering of grudges. And, really, since we ourselves are only half-way saints and have often given occasion for stumbling in the past to others, perhaps we would be happier if we hurried our whole collection of these souvenirs of dislike to the furnace, where they really belong.—Boston Transcript.

KIDNEY TROUBLE OFTEN CAUSES SERIOUS BACKACHE

When your back aches, and your bladder and kidneys seem to be disordered, go to your nearest drug store and get a bottle of Dr. Kilmer's Swamp-Root. It is a physician's prescription for ailments of the kidneys and bladder.

It has stood the test of years and has a reputation for quickly and effectively giving results in thousands of cases.

This preparation so very effective has been placed on sale everywhere. Get a bottle, medium or large size, at your nearest druggist.

However, if you wish first to test this preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention The Gazette or The Republican. adv

GOODBY, WOMEN'S TROUBLES

The tortures and discomforts of weak, lame and aching back, swollen feet and limbs, weakness, dizziness, nausea, as a rule have their origin in kidney trouble, not "female complaints." These general symptoms of kidney and bladder disease are well known—so is the remedy.

Next time you feel a twinge of pain in the back or are troubled with headache, indigestion, insomnia, irritation in the bladder or pain in the loins and lower abdomen, you will find quick and sure relief in GOLD MEDAL Haarmen Oil Capsules. This old and tried remedy for kidney trouble and allied derangements has stood the test for hundreds of years. It does the work. Pains and troubles vanish and new life and health will come as you continue their use. When completely restored to your usual vigor, continue taking a capsule or two each day.

GOLD MEDAL Haarmen Oil Capsules are imported from the laboratories at Haarlem, Holland. Do not accept a substitute. In sealed boxes, three sizes.

Does Your Food Kick Back?
Thousands upon thousands are taking Pepsinco, the marvel of the 20th century, because they could not eat a meal without distress, pain and a disagreeable bloating. Today they are better, able to eat what they want and when they want. They took Pepsinco. Do you feel bad after eating? Take Pepsinco. They will aid digestion. No pain, distress. It's like living life over again when you take Pepsinco. The absence of pain and sourness makes you contented and happy. Mr. E. said Pepsinco saved his life simply because he did not dare eat things good for him and he was slowly starving to death. Pepsinco helped him. All druggists sell and recommend Pepsinco.

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and cheap to make, but it really has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2 1/2 ounces of Pinex from any druggist, pour it in a pint bottle, and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, whooping cough or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

PUBLIC SALES

Have your sale announced FREE in this column early, so that you may claim your date and others will pay for it. These ads are run every day and are gratis with the large display advertising. We also furnish sale bills without charge. Let us tell you about it.

PUBLIC SALE advertising in the Gazette and Republican brings the crowds. In these days of automobiles the farmer has no time to stop along the road to read the bills. He is coming to depend upon these papers to notify him of the sale dates—and articles to be offered for sale. It's the buyer from a distance who sees your ad in this paper, who jumps in to his auto and hustles to your sale, who pays what your stuff is worth. Your neighbor no longer can stand around and pick off what he needs at an absurd price, as he does when you have not properly advertised, and gotten a good crowd. Use the Gazette and Republican if you want the worth of everything you offer. Don't try to save on your advertising.

Music's Value in Home.

Music is so general in its inspiring appeal to our better emotions that we cannot afford to neglect its cultivation in the home. Few mothers realize the importance of training and association in this direction. One ventures to say that many men and women have been impelled to right living and accomplishment of high ideals by the intangible strain of music that runs like a bright thread of sentiment through the stress of busy days. Mechanical piano players and other ingenious musical devices threaten less personal participation in a outtime pleasure.

THE HIGH COST OF HOLDING OFFICE IS TOO MUCH FOR HIM

Larry Hodgson.

Friends of Larry Hodgson, mayor of St. Paul, Minn., were planning to boost him as a candidate for governor in 1920 when he nipped the plan in the bud by announcing himself to be "permanently out of politics." He says any man without a substantial business income has no business in politics, as he will emerge in debt.

EAST END NEWS

Dr. R. B. Hamilton, a prominent dentist of Danville, Ky., son-in-law to Rev. and Mrs. P. A. Nichols of this city, was operated on for appendicitis at the hospital in Lima, Ohio, last Friday morning. Letters received from Mrs. Nichols, who is with Mrs. Hamilton, which were written following the operation, stated that he withstood the operation finely, and had rallied nicely. A letter mailed since the first two, stated that he was not so well the next morning and that his wife and Mrs. Nichols had gone to the hospital. Dr. Nichols feels quite anxious concerning the outcome of Dr. Hamilton's illness, and they have the deep sympathy of their many friends. Dr. Hamilton is a very prominent man in Danville, Ky., being a member of the city council for 10 years and also the secretary of that body.

Prof. A. Mohamid Millia delivered a very interesting lecture at Zion Baptist church last night. His talk on India was very instructive. He has been converted to the Christian religion and says that it is his purpose to return to his own country in 1920 or 1921 and labor for the Christianization of his people. He says that he expects to take eleven ministers with him at his expense, to cooperate in the mission work. His paintings of he baptism, the cross-bearing and the crucifixion were splendid works of art. He sold replicas of the first two at 50 cents each. He spoke in high praise of his entertainment while here.

St. John's A. M. E. Sunday school board will meet tonight at the residence of the pastor, Rev. P. A. Nichols.

THAT DULL ACHING

Don't worry and complain about a bad back. Get rid of it! For weak kidneys, lame and aching backs, your neighbors recommend Doan's Kidney Pills. Read this statement:

"Mrs. Josephine Laurens, 306 Hill St., Xenia, gave the following statement January 7, 1919: 'When my back has been lame and I have had that dull, constant ache across my kidneys, I have used Doan's Kidney Pills. When my kidneys have been out of order, I have also been bothered with dizzy spells and spots before my eyes. Doan's Kidney Pills have always relieved those troubles, putting my kidneys in good order. I have bought Doan's at Donges' Drug Store.'

OVER TWO YEARS LATER, on August 2, 1917, Mrs. Laurens said: 'I still think a great deal of Doan's Kidney Pills because I have had wonderful results when I have used them.'

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Laurens had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. adv

SOLDIER'S LETTER

Ralph S. Weaver of Co. D, 332nd Inf., who is one of the few local boys in Italy, has written interestingly to relatives here. He says in part:

"Well I am back in Italy again right where those pictures were taken—was in that town this afternoon. We just returned from Austria via feet and guess we hiked about 100 miles—I am here with both feet on yet."

"I suppose you have already read about the 332nd going over the Piave river and on up to Austria in pursuit of our friend the enemy. Well to make a long story short until I get more time to tell you the particulars, we had quite a time and to say that we speeded would be putting it very mild. I think we averaged 40 miles per hour. There were a few times when old South Detroit street looked a great ways off. When three or four of those machine guns that shoot 650 times per minute begin to open up and you can hear the bullets sing past you, you naturally think of those you love best. That is what we had to entertain us when we crossed the Tagliamento, but the Artillery soon put an end to that. After we crossed river a group of us were going down the road rather on the alert, when we heard a noise sounding just like my old Indian motorcycle used to, and looking up the road a few rods, the dust began to kick up like a shower on a dusty road in the summer time. It didn't take us long to decide that it was a machine gun trying to cut off our advance. Just then I heard two sharp reports and—well that was the end of that annoyance. I'll tell you the whole story one of these days."

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

PRIVATE OWNERSHIP OF RAILROADS IS FAVORED BY CONGRESSMAN FESS

Private ownership under government regulation both for railroads and for the merchant marine was recommended by Representative Simeon D. Fess in New York at a meeting of the Republican club, where he was the chief speaker.

He asserted positively that Secretary McAdoo's plan for a five year extension of the Government's possession of the railroads will not be approved by Congress. Speaking of the railroads, Congressman Fess said:

"My opinion is that neither complete private ownership nor Government ownership is the wisest way. We must include the good and eliminate the danger of both methods. Under Government operation a single system with common terminals, union ticket offices and short hauls that ignored traffic lines, brought about valuable changes that should be retained in the interest of the public.

"Consequently our legislation should permit the roads to pool their properties. This would necessitate the amending of not the repeal of the Sherman law.

"To make the scheme workable, the most specific way would be to require

the roads to incorporate subject to the nation. The owners must relinquish the claims that the roads are private to be run for profit. The brotherhoods must relinquish the claim that the roads are run to employ men at good wages. The public, or third party in the end, must be considered and will, in the end, become the chief factor in the determination of policy."

Representative Fess said that the necessity of operating the merchant marine in the face of competition with other Governments that combine the maximum of substitutes with a minimum of labor costs creates a grave problem. Discussing it, he said: "We can sell the ships we have built to American companies upon such terms as can be agreed upon to be run under Government regulation, providing for the maintenance of American standards, the difference in the cost of operation to be paid out of the national treasury. This will be a subsidy in the modern sense of the word.

"The same objections to Government ownership apply to both railroads and the merchant marine. Just now members of the Congress are exercised over the report of the Hog Island investigation, which shows that the contract price, which was fixed at \$21,000,000 will reach \$61,000,000. The government cannot do business anywhere near as efficiently as it is done under private initiative and control."

Representative Fess said that the Federal reserve system and the consular service system and the consular service should be improved to aid the nation in its role of international trader. He said:

"No one can properly estimate the charges which the treasury will have to assume. Interest alone will approach \$1,000,000,000. The war risk insurance charge will take another billion. The army and navy will certainly reach well beyond the billion and a half mark. There must be provision to meet four or five times the annual charges prior to the war.

Theodore Roosevelt's Life Was One Long Adventure

Colonel Theodore Roosevelt's life was one long adventure. He sought dangerous stunts in public life, in the wilds of the western United States, in the jungles of Africa, and the unexplored regions of South America.

He fearlessly attacked public men in this country and on one occasion he spoke in the Guild Hall, London, berating the British for their treatment of the Egyptians. The British foreign minister heard the speech. He criticized the American "commercial spirit" in a speech in Brazil. At one time he defied the German fleet, giving it ten days to move from Venezuelan waters and then reduced the time, declaring he would blow it out if it didn't move.

Col. Roosevelt was one of the few presidents of the United States to leave the country after his term of office. His trips to Africa and South America were historical. Both were made in interests of science.

On his trip to Africa, leaving the United States March 23, 1909, he covered 28,133 miles, spending practically eleven months in the African jungles. He visited the capital of nearly every country on the two eastern continents, hobnobbed with rulers and diplomats.

Degrees were conferred on him by the Universities of Egypt, Leipzig, Sorbonne, Berlin, Christiana, Cambridge and Oxford. He was received in audience by the Kings of Uganda, Italy, Belgium, Norway and England, Emperors of Germany and Austria; Queen Wilhelmina of the Netherlands, the crown Princes of Denmark and Sweden and the President of France. He declined to meet the Pope and cancelled an engagement that had been made for him because of restrictions sought to be imposed on him.

He was the first civilian ever to review the German and French armies, the flower of each being called out in special reviews for him.

His travel in the African jungles resulted in the greatest bag of big game ever killed in Africa, among which were several new species from attacks by wild animals. He was made special ambassador from the United States at the funeral of King Edward of England. In 1913, he went to South America to explore parts of Brazil. This resulted in finding the famous "river of doubt," which was the cause of many controversies. South Americans entertained him royally.

ATTEMPT IS BEING MADE TO ORGANIZE AN AMATEUR SHOW

The chrysalis of interest in an amateur benefit show, is rapidly executing its annual evolution.

Now, but the faint whisperings of rumor can be heard, but from the way the whispered rumor is receiving attention it is thought that it won't be long until another amateur production will be launched on the road toward success. It can only be success for if the amateur show does no more than arouse interest it has been successful.

George R. Bocklett, to whom goes much credit for the success of "The Red Cross Girl," last winter's production which was undoubtedly the best amateur performance ever given here, is taking an active interest in the starting of a 1919 production and already his letters of inquiry have received responses from a number of different directors and amateur theatrical producing companies.

The matter of securing a director is one that Xenia has not had to face for several years, but Mr. Bocklett has gotten a line on a number of different producers, and it is thought that a satisfactory director could be secured with very little trouble. As yet, a beneficiary for the production has not been decided upon, but as the production is yet in its infancy there are many matters that can be arranged quickly should the public show the proper interest in the theatrical.

COURT NEWS

The will of John Miller, late of Bath township, was admitted to probate Monday. The will leaves the entire estate, barring a few minor bequests to a brother of the decedent, Asa Franklin Miller, of Medway, Clark county, who was also named to serve as executor. It is provided that a monument be purchased at a cost not to exceed \$200, and \$100 is left to the trustees of Fairfield cemetery for the purpose of keeping the family lot in repair. Franklin Miller was appointed executor, and his bond fixed at \$3500.

By the will of Newton Berryhill, late of Sugar Creek township, his estate is divided among his three children. Howard E. is given the farm designated by the decedent as the one he inherited from his father, and it is provided that he pay to his brother, Clarence, \$1,800 in full of his claims against the estate. The daughter, Mrs. Alta Berryhill Austin, is given the home farm consisting of 52.70 acres. The estate is valued at about \$25,000. Howard Berryhill and Mrs. Austin were made administrators with the will annexed, the wife, who was named to act as executor, having died prior to her husband.

M. L. Marsh qualified as executor of the will of Sarah M. McMillen, and furnished \$3,000 bond. F. P. Hastings, R. C. Watt and Robert Bird were named as executors.

The bond of Frederick E. Anderson as guardian of Ruby Louisa Ellison, has been reduced to \$2,000.

DISCOURAGED

You have tried everything. It's the same old story. I hear it everyday. Your courage is gone, your faith is gone. The end would be gladly welcomed, but even that won't come. What would you give to be a well man? A well woman? What wouldn't you give? Worse cases than yours are yielding as if by magic to its subtle power. Why not your case? I will leave it to your intelligence and good judgment. Slaves to mock or false modesty, you deserve to suffer. 95 per cent of the supposed incurable cases could be relieved physically and mentally, if they would only confess it to a friend, family, or better, a skilled physician. Don't argue I've tried electricity with no results—you may have no idea what an up-to-date electrically equipped institution really is.

IF I ONLY KNEW JUST WHAT AILS ME.

How often have you made this remark? Yet you continue to suffer, hesitating to seek aid because you consider that medical attention would be too expensive, or, perhaps, are you dissatisfied with past treatment?

Remember, all the wishing, hoping and praying never cured any real physical ailment. Then, why continue to grope in the dark, suffering pain, discomfort and dissatisfaction? An X-ray examination will cost you but one dollar and is considered by the medical profession as one of the greatest aids to a correct diagnosis. If your case is not incurable you can be treated in one of the most completely equipped offices in the Middle West. 25 years' experience.

SPANISH INFLUENZA MORE DEADLY THAN WAR

Said that Epidemic Cost More Lives Than American Loss in Battle.

Danger Not Over. Great Care Necessary to Prevent Further Outbreak.

The appalling ravages of Spanish Influenza in this country are perhaps best realized by the statement recently made, that more deaths have resulted in this disease than through our whole eighteen months' participation in the battles of the European war.

Our greatest danger now, declare authorities, lies in the great tendency to forget easily and to believe the peril is over. Competent authorities claim the coming of cold weather is very apt to bring a return of this disease and there should be no let-up throughout the winter months of the following easily observed precautions, remembering that Influenza is far easier to prevent than cure.

Influenza is a crowd disease. Avoid crowds as much as possible. Influenza germs spread when ignorant or careless persons sneeze or cough without using a handkerchief. Cover up each cough or sneeze. Do not spit on the floor, sidewalk, in street cars or public places. Avoid the use of common drinking cups and roller towels in public places. Breathe some reliable germicidal and antiseptic air to destroy the germs that do find lodgment in your nose and throat.

Remember, no safer precaution against Influenza could be employed in this manner than to get from the nearest drug store a complete Hyomei outfit, consisting of a bottle of the Pure oil of Hyomei and a little vest-pocket hard rubber inhaler device, into which a few drops of the oil are poured. You should carry this inhaler about with you during the day and each half hour or so put it in your mouth, and draw deep breaths of its cure, healing germ killing air into the passages of your nose, throat and lungs.

By destroying germs before they actually begin work in your blood, you may make yourself practically immune to infection.

All these suggestions about Spanish Influenza are equally true in the prevention of colds, catarrh of nose and throat, bronchitis and even pneumonia. Don't become careless. Do your part. Keep the germs away. You may save yourself a serious illness and the loss of several weeks' work.

EMPHATICALLY ASSERTS WORN OUT, LAGGING MEN CAN QUICKLY BECOME VIGOROUS AND FULL OF AMBITION

7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food. Given the right kind of medicine, any tired-out, inactive, lagging fellow can quickly be made into a real live, energetic and even ambitious man. So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up ambition enough to take a regular job to get a package of Bio-feren at any drugist.

This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despaired of ever amounting to anything in life. People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their

old-time confidence and energy in less than two weeks. No matter from what cause your nerves went back on you; no matter how run down, nervous or tired out you are, get an original package of Bio-feren at once at Sayre & Hemphill's. Take two tablets after each meal and one before bedtime—seven a day for seven days—then one after each meal till all are gone. Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned. Note to Physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Leechin; Calcium Glycero-phosphate; Iron; Peptonate; Manganese Peptonate; Ext. Nux Vomica; Powdered Gentian; Phenolphthalein; Quaresin Capsicum; Kola. adv
